

EPUS February 2014 FRA Report

Meeting December 16, 2013.

We heard from David Moon regarding faculty oversight of program assessment and general education. He outlined the current system and responsibilities for academic planning and discussed possibilities of how those might change with the new compass curriculum. We are currently reviewing proposed distribution of responsibilities and will have a recommendation by the March FRA.

In future meetings this semester we will review the campus course withdrawal process and the campus certificate policy and procedures.

Craig Elder, EPUS Chair
