

FAWC Chairs met on 4/10/2014.

FAWC annual workshop will be held on May 2, a Friday, from 9am to 11pm. Breakfast food will be served. Agenda specifics to come, but will involve issues around both TT and NTT faculty workloads as identified in a qualitative survey. These may include: Resources and support at all levels for faculty research (with emphasis on junior faculty), negotiating service loads (all ranks), and the issue of differentiated workloads and standardization of policies for NTT.

The committee and the Chairs are in the process of final edits for by-laws which we will present to the Faculty Assembly for review in the Fall of 2014.
