Minutes

Me, David, Martin, Scott, Susan, Judy, Regina

1. OER
   a. New Colorado legislation (HB18-1331) and CDHE guidance require that students are informed before they register about which courses are using low-cost and no-cost materials.
   b. The legislation calls for this to be in the schedule of classes at the time of registration. The CU System is working on this, but in the meantime, the UCCS OER Council maintains UCCS's list of these courses, which is linked from the Registrar's web pages for students to view. This includes courses using Open Educational Resources (OER), and also courses with no required materials and courses with low-cost materials ($20 or below and $30 or below). Sp 22 list should be up by Monday. Must be in the registration system by 2025.
2. Canvas
   a. Crosslisted sections/courses will be more discernable starting with Sp22 courses.
   b. Classic Quizzes (formerly just "Quizzes") is scheduled to be replaced by New Quizzes by Su22. We will begin communications about this soon, make the transition over Sp22.
      i. New question types (among other new features):
         1. Categorization – drag and drop items into categories.
         2. Ordering – drag and drop items to order.
         3. Hot spot – click hot spot on image.
         4. Formula – not a new type, but now supports scientific notation.
      ii. Shortcoming: cannot currently migrate question banks from Classic to New, but this capability is planned for the release date.
   c. FCQ/EvaluationKit issues are still being worked on.
3. CU Online Initiative
   a. No update.
4. General gab session

Next Meeting – Thursday, November 4, 2021
