

## Minutes

Me, Martin, Judy, Regina, Susan

1. Welcome, Judy! (Better late than never. 😊)
2. Salesforce Student Success Hub (SSH)
  - a. Replacement for Starfish
  - b. Planned go-live date is Dec 17; Starfish link will be removed from Canvas courses shortly thereafter
  - c. While SSH has a lot of features that advisors will use, faculty will likely focus on:
    - i. Setting up a profile
    - ii. Scheduling office hours
    - iii. Submitting alerts
  - d. Faculty training
    - i. Presentation at the UCCS Teaching & Learning Conference, Jan 12-13
    - ii. Hour-long training sessions the week before and the first week of spring classes
    - iii. Open office hours
    - iv. Tutorials, videos, recordings posted on FRC SSH page
    - v. *Stay tuned!*
  - e. Note: Unlike Starfish, SSH will not integrate with Canvas, nor will it have Progress Surveys or the Zoom In tool, at least in Phase 1 of its implementation. Those features are high on the priority list for Phase 2 planned for Fa22.
3. Canvas
  - a. Classic Quizzes (formerly just “Quizzes”) will be replaced by New Quizzes
    - i. Deprecation date for Classic Quizzes is TBD
    - ii. New question types (among other new features):
      1. Categorization – drag and drop items into categories
      2. Ordering – drag and drop items to order
      3. Hot spot – click hot spot on image
      4. Formula – not a new type, but now supports scientific notation
    - iii. Shortcoming: cannot currently migrate question banks from Classic to New, but this capability is planned for the final version
    - iv. Visit the FRC Canvas page for instructions on how to enable New Quizzes in your course
  - b. We think we have a work-around for the FCQ/EvaluationKit issues, but we were too late to implement for this fall; hopefully in the spring
4. General gab session

Next Meeting – In the spring!
