

UCCS Campus Sustainability, September 11, 2009, EPC 304C 8:30-10:00

Proposed AGENDA

Welcome new members

Add to Sustainability Office's proposed project list (sent via e-mail):

- Recycled paper in printers/copiers
- Garden
- Link lifestyle and health Healthy Campus 2010: A Quantitative Tool for Higher Ed Health Programming
Obesity is a growing issue on college campuses across the United States. Nearly 21 percent of all college students are considered overweight, according to the American College Health Association. With almost one-fourth of all college students not participating in any cardiovascular or aerobic activity on any day of the week, the percentage of overweight college students is not really a surprise.
- LEED training options through extended studies
- Stormwater (Gary Reynolds memo and notes from Earles)
- Full utilization of campus infrastructure scheduling classes throughout the week

Support Tobacco Committee in uniform 25 foot setback for tobacco We have LEED points for 25 feet for both buildings but the rest of campus is 20 feet.
